

#	Project Number	Project Title	Lead Investigator	Project Status	Submitting Institution
1	PPM 03-0227-190008	HLA transcriptomics	Dr. Bernice Lo	Award Active	Sidra Medicine
2	PPM 03-0311-190017	The QGPRS Study: Qatar Genome Polygenic Risk Score, a precision Medicine Approach to Prevent Diabetic Complications in the affected Qatari Individuals	Dr. Ammira Al-Shabeeb Akil	Award Active	Sidra Medicine
3	PPM 03-0314-190024	Precision Pharmacogenomics in Qatar	Dr. amal robay	Award Active	Weill Cornell Medical College in Qatar
4	PPM 03-0322-190036	Personalizing Therapy for Atrial Fibrillation in Qataris	Dr. NIDAL ASAAD	Award Active	Hamad Medical Corporation
5	PPM 03-0324-190038	Personalized care for Qatari patients with genetic predisposition to hypercholesterolaemia: better prediction, diagnosis and management	Prof. Omar Albagha	Award Active	Hamad Bin Khalifa University
6	PPM 04-0128-200014	Pharmacogenetics in childhood acute lymphoblastic leukemia: from variants identification to clinical implementation.	Dr. NAIMA AL-MULLA	Award Active	Sidra Medicine
7	PPM 04-0128-200015	Unlocking precision medicine potential through functional genomic studies in the diagnosis of inherited immunodeficiency diseases.	Dr. Amel Hassan	Award Active	Sidra Medicine
8	PPM 04-0131-200019	Early diagnosis of proteinopathies using massively parallel nano-spectroscopy with single-molecule sensitivity. Advanced clinical diagnostics for the development of personalized treatments	Prof. Milivoj Belic	Award Active	Texas A&M University at Qatar
9	PPM 04-0311-200035	Exploring Drug Resistance Mechanisms in Triple Negative Breast Cancers: From Patient Derived Organoids towards Precision Medicine	Prof. Lotfi Chouchane	Award Active	Weill Cornell Medical College in Qatar
10	PPM 04-0312-200037	Pharmacogenomics of TNF inhibitors in autoimmune diseases	Dr. Borbala Mifsud	Award Active	Hamad Bin Khalifa University
11	PPM 05-0316-210001	Multiregional genomic sequencing of pediatric cancer patients from Qatar, solid tumor heterogeneity and clinical impact	Dr. Wouter Hendrickx	Award Active	Sidra Medicine
12	PPM 05-0419-210008	Mendelian forms of Inflammatory Bowel Disease: Identifying the Genomic and Immunologic Drivers of Intestinal Inflammation	Dr. Bernice Lo	Award Active	Sidra Medicine
13	PPM 05-0423-210009	Target and drug discovery for cardiovascular genomic medicine using high-throughput cell screening platform	Dr. Ayman Al Haj Zen	Award Active	Hamad Bin Khalifa University
14	PPM 05-0506-210017	Artificial Intelligence and Precision Lifestyle Medicine: Unlocking the complex relationship between genes and environment	Dr. Mohammed Al-Thani	Award Active	Ministry of Public Health
15	PPM1-0102-160028	Genetic VERSUS Environmental Basis for Familial Diabetes in Qatar	Prof. Abdul-Badi Abou-Samra	Award Tech. Completed	Hamad Medical Corporation
16	PPM1-1122-150008	Mapping the population transcriptome for the Pilot phase of the Qatar Genome Project: Towards elucidating the causal functional consequences of Qatari genetic variation	Dr. Younes Mokrab	Award Tech. Completed	Sidra Medicine
17	PPM1-1206-150013	Personalized approach to muscle and neuromuscular genetic diseases in Qatar: Paths from clinical genetics and genomic signature research to preventive and precision medicine	Prof. alice Abd El Aleem	Award Tech. Completed	Weill Cornell Medical College in Qatar

#	Project Number	Project Title	Lead Investigator	Project Status	Submitting Institution
18	PPM1-1220-150017	A platform for large-scale serological profiling of the Qatari population to link individual genome and immune phenotype variation in health and disease	Dr. Nico Marr	Award Tech. Completed	
19	PPM1-1229-150022	A high resolution map of structural variation in Qatari genomes and their contribution to quantitative traits and disease	Dr. Khalid Fakhro	Award Tech. Completed	Sidra Medicine
20	PPM2-0207-170010	Identification of genetic variants associated with polycystic ovary syndrome	Prof. Steven Hunt	Award Terminated	Weill Cornell Medical College in Qatar
21	PPM2-0216-170012	Saliva diagnostics to pave the way towards personalized medicine	Dr. Souhaila Al Khodor	Award Active	Sidra Medicine
22	PPM2-0216-170014	Genomics, Islamic Ethics and Public Engagement (GIEPE): Towards Bridging the Knowledge and Communication Gaps	Dr. Mohammed Ghaly	Award Active	Hamad Bin Khalifa University
23	PPM2-0226-170020	Qatar Epigenome: Profiling of Epigenetic modifications and identification of Epigenome Wide predictors of Type 2 Diabetes and Obesity in Qataris from the QGP pilot study.	Dr. Noha Yousri	Award Active	Weill Cornell Medical College in Qatar
